

Dynamic Global Yield Private Pool Class¹

Overview

This investment Pool provides broad diversification amongst various income producing asset classes. The Pool also provides the benefits of tax efficiency within a corporate class structure.

Investment Discipline

This Pool is constructed using distinct specialized income-oriented strategies and benefits from exposure to a broad range of fixed-income and equity investment styles. Each manager runs a specific mandate governed by a tailored Investment Policy Statement.

<ul style="list-style-type: none"> Concentrated portfolio of high-conviction ideas Focuses on free-cash-flow generation and dividend growth Targets companies in top half of balance sheet quality by sector 	<ul style="list-style-type: none"> Targets high quality "best-in-class" businesses, including alternatives as defined by QUARP® (Quality at a reasonable price) Focuses on companies with sustainable dividend income and potential for dividend growth 	<ul style="list-style-type: none"> Combines a quality-value investment approach with a defined risk management framework Invests in a concentrated set of high quality U.S. companies Uses valuation as a central pillar of the buy-and-sell discipline 	<ul style="list-style-type: none"> Uses bottom-up fundamental research to find businesses with sustainable competitive advantages in attractively structured industries with cash-flow generating abilities Manages fundamental and valuation risk by investing in best-in-class businesses at a reasonable price (below intrinsic value) 	<ul style="list-style-type: none"> Active approach to managing interest rate and credit risk Tactically manages duration, sector allocations, and foreign exchange exposure Fundamental credit analysis and monitoring dictates all security purchases and dispositions 	<ul style="list-style-type: none"> Active security selection focused on risk/reward trade-off Utilizes fundamental independent credit analysis Capital preservation philosophy, favouring diversified and liquid portfolios 	<ul style="list-style-type: none"> Flexible total return approach that capitalizes on both interest rate movements and credit opportunities while carefully managing risk Invests across full spectrum of fixed-income universe while maintaining average credit rating of A- or better

¹ Includes all corresponding fee-based series (FH, FT)

² Not available for purchase in registered plans or TFSA's.

³ Reflects the Pool's equity allocation. These are general guidelines. The managers have the flexibility under certain circumstances to deviate from these limits on a temporary basis.

⁴ Includes multinationals incorporated in the US that generate revenue primarily overseas.

⁵ Each strategy must invest in at least 3 sectors.

⁶ Switching from a Dynamic Corporate Class Fund into the DCAF version of a Corporate Class Fund will trigger a taxable event, as DCAF is composed of money market securities held in a mutual fund trust that are not within the Class structure. Once in DCAF, switches are then made into the target Corporate Class Fund.
